

Access International Markets

ACE is a targeted acceleration programme that provides support to highly innovative Irish start-ups and SMEs in the ICT sector to grow internationally.

As a partner in the ACE programme, Dublin BIC will provide access to:

INTERNATIONAL PARTNERS

Connect directly with investors, mentors and ICT start-ups from across Europe.

FUNDING

Find out what funding is available to grow your business and engage directly with international investors through investor forums.

CUSTOMISED SUPPORT

Receive tailor-made support to help your ICT business grow internationally - whether that's a start-up bootcamp or a personalised introduction. Our network includes business incubators, living labs and business clusters throughout Europe.

EUROPEAN MENTORS

Tap into our network of experienced, sector specific business support mentors from across Europe to get advice, support and the contacts you need to grow your business in new markets. Mentors include the senior executives of Microsoft Corporate Ventures, French VC iSource and Italian Business Angels.

GET INVOLVED...

100 European ICT start-ups and SMEs will be selected to participate following an open call for candidates in January 2014. Successful applicants will be assigned a mentor who will develop an internationalisation action plan, and will be connected with an international support team.
